

ROTARY HOSTS GOVERNOR OF DISTRICT 656

CURTIS HOSTETTER VISITS GREENCASTLE CLUB ON WEDNESDAY

Rotary Clubs in 110 countries and geographical regions throughout the world are united in an endeavor to promote international understanding, good will and peace. That was the message of Curtis Hostetter of Lafayette, governor of district 656 of Rotary International, in addressing the Rotary Club of Greencastle on Wednesday noon, following a conference with local Rotary officials.

In addition to the activities of the more than 9,800 Rotary Clubs within their own communities to promote this objective, Hostetter explained, Rotary International has awarded grants of more than \$2,600,000 in the past 11 years through its program of student fellowships, which enable outstanding college graduates to study for one year in countries other than their own, as Rotary ambassadors of good will. Since 1947, when this program was established, 1,076 Rotary Foundation Fellowships have been awarded to students in 65 countries for study in 43 countries. James Parr, Lebanon, is the Rotary Fellow from this District this year studying in Germany.

"With fellowship and service to others as its keynote, Rotary provides a common ground for 462,500 business and professional executives throughout the world, regardless of differing nationalities or languages or political and religious beliefs," the Rotary district governor emphasized. Hostetter urged the local Rotarians to attend the Rotary district conference to be held in New York City next June.

Harold Gray of Crawfordsville and Dr. John Judy of Greencastle were Rotary guests.

Social Security Bill In House

WASHINGTON (UPI)—The House passed today a bill to boost Social Security benefits and raise the tax ante to support the increase.

The House was believed certain to approve the measure and there was some talk the Senate might vote for still greater benefits.

The Democratic-sponsored House bill, supported by the vast majority of Republicans, would affect 11,800,000 persons drawing Social Security checks and 75 million full and part-time workers who put tax money into the program.

It would send benefit payments up about 7 percent for present and future beneficiaries. The higher taxes would more than cover the hike in benefits. The Ways & Means Committee reported to the House this was necessary to restore the long-range actuarial solvency of the multi-million-dollar Social Security program which is running at a deficit for the first time.

Pastor Is Hero To Parishioners

PEORIA, Ill. (UPI)—From the Rev. Ora E. Spencer, men and women take courage.

As calmly as any man may face the end of life, he knows that within three to six months he will die of cancer. He has told his congregation, and has shown that he believes it is God's will.

Hence for many members of his congregation in the Peoria Heights Congregational Church, death no longer is a frightening thought or a forbidden topic of conversation.

It is this feeling among his parishioners which, the Rev. Mr. Spencer said today, compensates him for the personal distaste with which he regarded the publicity attention centered on him after his plight became known.

The 58-year-old minister was robust as a professional athlete, an enthusiastic outdoorsman and mountain climber, until a year ago when he first was stricken with cancer of the intestine. Surgeons removed part of his colon.

Six months later his strength began to fail. By June 29 he found it almost impossible to remain standing while he delivered his sermon. He returned to his doctor and learned the verdict: Death within three to six months.

Within hours he called a meeting of the church's board of trustees to announce his death "as though he were going to have a tooth pulled, Chairman William Q. Drake said. The board unanimously agreed he should stay on as pastor.

"It's his church until he or the Lord decide otherwise," Drake said. The Rev. Spencer saw nothing unusual in his acceptance of death.

OFFICIAL OF ELI LILLY CO. IS MURDERED

FORREST TEEL IS SHOT TO DEATH WHILE DRIVING AUTO

INDIANAPOLIS (UPI)—An executive vice president of one of the nation's largest drug firms was slain today by an occupant of a car which pulled alongside his auto on an Indianapolis street.

Forrest Teel, 52, executive of Eli Lilly and Co., was found by employees and patrons of a nearby restaurant slumped over the wheel of his wrecked car.

Witnesses said they saw a late model blue and white automobile pull along side Teel's white Cadillac moments before the shooting. The bullets struck the handsome, wealthy executive three times in the throat, abdomen and left side.

His car crashed against a pole as Teel crumpled across the steering wheel.

Charles Hedrick, 68, an employee at a nearby Howard Johnson restaurant, and Earl Alexander, 48, another witness, both told of seeing a blue and white Oldsmobile beside the Teel car.

Teel, a native of Oklahoma, joined the pharmaceutical firm in 1926. He was credited with growth of the firm's large markets in South America and traveled much of the time on that continent.

Formerly he was president of the Eli Lilly International Corp., a subsidiary, and at the time of his death was chairman of the subsidiary's board in addition to being vice president of the parent company.

He was elected executive vice president in 1954.

He lived in Indianapolis with his wife, Mary, and their son, Tommy.

IKE READY TO MAKE CHARGES AGAINST RUSS

WASHINGTON (UPI)—President Eisenhower is prepared, at the proposed Middle East "summit" meeting, to confront Soviet Premier Nikita Khrushchev with the record of worldwide Russian aggression and subversion dating back to 1940, it was learned today.

Officials said Secretary of State John Foster Dulles might give a preview of the American position and tactics at his news conference today.

The President will lay bare the Russian record from the Red take-over of the Baltic nations of Latvia, Lithuania and Estonia in 1940 through Czechoslovakia and the brutal 1956 repression in Hungary. His aim will be to document the American position that "direct or indirect aggression" poses the principal threat to peace and stability in the Middle East as well as other areas of the world, high officials told United Press International.

The Chief Executive said in his last letter to Khrushchev the proposed meeting "should be limited to a discussion of the problems of the Middle East including the causes of those problems." Officials said this does not prevent him from citing history to make his case.

West 'Warms Up' To Iraqi Regime

LONDON (UPI)—The new revolutionary Iraqi regime appeared today to be well on the way toward winning diplomatic recognition from the West.

The icejam was broken Wednesday when the Moslem members of the Baghdad Pact—Pakistan, Turkey and Iran—recognized the government of Premier Abdul Karim Kassem. West Germany and Greece followed suit.

Authoritative sources said that while the Baghdad Pact members had reached a decision on an approach to the Iraqi question, they had failed to find any solution to the problem of Jordan.

Reports reaching here indicated rising tension in Amman. The Jordanian government, which has maintained strict censorship on all press dispatches, Wednesday barred unofficial telephone calls to the outside world.

Information brought out to Cyprus earlier this week said King Hussein was battling desperately to hold on to his throne. His troops were reported maintaining virtual martial law throughout the country.

During the two-day council meeting this week, the United States, Britain and the three Moslem pact members debated at length the problem of Jordan.

It was generally agreed here the recognition of the new Baghdad regime was designed to prevent if possible the complete loss to the West of Iraq, the fifth member of the Baghdad Pact.

Sources said Britain was expected to announce formal recognition soon. The United States, although reluctant, was expected to do likewise.

Secretary of State John Foster Dulles made the commitment at the METO meeting in London Monday.

He said the United States would not fail to act, "even at great risk," to preserve the independence and integrity of the three Asian members, Turkey, Iran and Pakistan. Great Britain is the fourth member. Iraq, the fifth member, still nominally adheres to the pact. But as a result of the revolt which overthrew King Faisal, Iraq is expected to withdraw at any time.

Dulles is the father of the pact. He formed it as a barrier against Soviet Russian aggression and subversion in the Middle East. Turkey and Iraq were the two original members, by virtue of an alliance signed at Baghdad, the Iraqi capital, on Feb. 24, 1955. Pakistan, Iran and then Britain joined.

From the start, Turkey, Iraq, Iran and Pakistan wanted the United States to become a full member, insisting that otherwise their alliance could not be fully effective.

Dulles refused. He pleaded that United States adherence would antagonize Egypt and other Arab countries and also would cause Israel to demand a mutual defense treaty with the United States.

But the United States has crept into METO step by step. First it joined the METO economic committee, then the anti-subversion and military committees.

Now Dulles has made the United States a full member.

CHEHAB ELECTED AS PRESIDENT OF LEBANESE

ELECTION SIGNALS AN END TO CRISIS IN LEBANON

BEIRUT, Lebanon (UPI)—Gen. Fuad Chehab was elected president of Lebanon today in a parliamentary landslide that signalled an end to the Lebanese crisis—and early withdrawal of U. S. forces.

After 13 weeks of bitter warfare, both government and insurgent forces rallied behind the 66-year-old army chief of staff. He was elected by a vote of 48 to 7 in the chamber of deputies.

The election, which for a time looked as though it would not come off, was held in the heavily guarded parliamentary building. Tanks, armored cars and troops surrounded the building. The entire area was cordoned off by barbed-wire barricades and extra security guards mounted guard at entrances to the city and key intersections.

It took two ballots before the excited announcement from Speaker Adel Osseiran that Chehab had won.

Fifty-six of the 66 deputies showed up for the crucial elections.

Chehab got 43 votes on the first ballot—just one short of the constitutional majority required. Only one other candidate gained any votes, opposition challenger Raymond Edde who received 10. Three deputies abstained.

On the second and decisive ballot, Chehab won 48, Edde got 7 and one deputy abstained.

Beirut radio immediately broadcast the news to the nation. It was received with jubilation.

The election could open the way for the withdrawal of the 10,000 U. S. Marines and Army paratroops sent to Lebanon two weeks ago to protect the integrity of the pivotal Middle East nation.

It was a triumph for the quiet, unassuming general who stepped out from a non-political military career to offer the nation stability. It was the second time Chehab took over the reins of government at a time of crisis.

In 1952, when President Beshara Khouri was forced to quit in another rebellion, Chehab acted as "strongman" until Chamoun was elected.

Chehab's election also was a tribute to the efforts of U. S. State Department troubleshooter Robert Murphy. Murphy was dispatched here by President Eisenhower to mediate between the government and opposition forces in the wake of the Iraqi revolt.

Apparently by design, Murphy was not in Lebanon during the critical election hours. He flew Wednesday night to Amman for consultations with King Hussein, who also has been having troubles. Today he went to Jerusalem to confer with Israeli officials.

Again in the fourth the Indians scored again on two errors and a walk.

Scott Lewis, Indians' pitcher, pitched a beautiful game striking out 14 batters and gave up his first hit in the fifth when Gerald York singled and scored on an error. In the sixth after an error, Tom Troyer singled driving in the other Yankee run. It was an unusual game for each run was an unearned run. Terry Crousore in pitching his no-hitter struck out ten batters.

The little league movement has accomplished many good things here in our city in the last two years. Baseball is one of the greatest of all sports and one of the hardest to play well. A successful player of baseball at his maturity will probably remember days and days of riding his bike with a ball glove hooked on the

handle bar going to a sand lot game. It is a game that has to be lived with for years to enable the boy to learn the hundreds of little things. The group of men to be commended and appreciated, who have put in hours upon hours of their time in working with our boys in their formative years.

City recreation, through Mr. Royce Kurtz's generous offer of the use of school buses, will attempt to take every boy who so desires to see a professional baseball game at Indianapolis. Every little leaguer, pony leaguer, minor leaguer, and high school player are cordially invited. There will be a very small fee charged for transportation expenses. Players over 14 will need to pay a small gate charge. The buses will pick up the players, parents, managers, bat boys, et cetera, at Robe Ann on Monday, August 4, at 6 p. m. and should return at about 11:30 p. m.

There are 90 little league players, 45 minor leaguers, 40 pony leaguers, and 10 varsity players for a total of 185 boys participating regularly in baseball in Greencastle.

approved pattern of departmental reports of Federation and world affairs with short discussion periods.

A report of last month's meeting was read and approved and a vote of thanks extended to our new president who furnished as her gift to each member, our new year books.

After discussing various details it was decided to hold a picnic at the County Home Aug. 20th, for the residents of the home. The New Maysville Community Ser-

vice Club will co-sponsor this event as they did last year. Presidents of each club will name the committees for this picnic.

A review of an article entitled "Texas Rebel with a Cause" was given by Mrs. Gladys Hall.

This dealt with the crucial problem of minority groups in Texas where Mexican born Henry Gonzales led the fight for rights of minority groups in the Texas legislature where he is a Senator. A discussion of world problems stemming from events relating

to treatment of minorities everywhere, brought out much comment but a final decision that there is no immediate nor easy solution as yet and future leaders of the world must solve this problem if there is to be World Peace.

Delicious refreshments for this warm afternoon were iced punch, wafer sandwiches, cookies and mints served by the hostess assisted by Mrs. Claude Barker. Mrs. Taylor was a guest and as she is a new neighbor, all were happy to meet and welcome her.

weather is continuing to plague Hoosier farmers, who are faced with the problem of trying to cultivate their soggy fields and maintain some sort of labor balance among the 5,811 migratory workers reported in the state, the

Indiana Employment Security Division said today. The division also said a farm labor information trailer has been established three miles south of Plymouth on U. S. 31 to advise

migratory workers of job prospects.

RECORDS NOT PRODUCED
WASHINGTON UPI—Senate rackets investigators said today Teamsters President James R. Hoffa has failed to produce the records they sought for a new investigation of his affairs. Robert F. Kennedy, rackets committee chief counsel, said Hoffa explained he did not keep such papers, including bank account records. He said Hoffa told committee investigators he conducted his business in cash. Kennedy said Hoffa would be "on and off" the witnesses stand repeatedly during the next few weeks as the committee digs into Teamsters activities in a dozen cities across the country.

ed States a full member in fact if not in form.
He has promised to enter separate treaties with Turkey, Iran and Pakistan backing up his commitment for full cooperation. As part of its cooperation, the United States is to increase its military and economic aid to the three Asian members.
It looked right after the Iraqi revolt, as if the pact had been wrecked. Iraq was the only Arab member. Also it is pretty certain the rebels captured all the secret documents of METO at its Baghdad headquarters. These docu-

ments included military plans and exhaustive evidence on Russian and United Arab Republic subversive activities in the Middle East, along with the names of METO secret agents in Arab countries.
Now, METO members appear to be convinced their alliance can still be effective. Just how effective the pact will be remains to be seen.

State In Line For 12 Congressmen

INDIANAPOLIS (UPI) —The size of Indiana's congressional delegation, which has shrunk gradually during the last 20 years, stands a good chance of increasing after the 1960 census.
But it still would be smaller than it was way back in the 1890s, even if the delegation is boosted from 11 to 12 members.
More significant than the size of the Hoosier group in the House, however, would be the redistricting of Indiana to create a 12th District, or the addition of an at-large district subject to the will of all voters in the state.
Also of significance would be the additional presidential electoral vote Indiana would have arising the number from 13 to 14. Electoral votes are based on the number of congressional districts plus two—one for each U. S. senator.
Increase of Indiana's House delegation was forecast by the Census Bureau in Washington Wednesday. The bureau said that as a result of the 1960 census, 14 states probably will lose and 9 states will gain seats in the House. Indiana was listed as one of the states which, because of a population increase, would stand to gain a seat.
Before and after 1900, Indiana had 13 members in Congress. The number remained at 13 even after the size of the House was set inflexibly at 435 in 1911. It stayed at 13 until 1930, when it was cut to 12, and at 12 until 1940 when it was cut to 11, where it has been ever since.
Who would benefit most from a reapportionment? The Republicans or the Democrats?
"We would gain the seat because it would come from the industrial population," said Democratic State Chairman Charles E. Skillen.
That might be true, particularly if some populous industrial area like the 3rd District were apportioned to give more representation to St. Joseph County, third most populous in the state and ranking behind Marion and Lake, each of which is a congressional district by itself.
Nevertheless, each state does its own redistricting and presumably the party in power in state politics would have something to say about the lineup of counties, although federal reapportionment laws apparently protect against gerrymandering unfair or abnormal districting.
Any increase in the delegation would not reflect in Congress until it meets in 1963, because members of the Congress convening in 1961 will be elected the same year the census is being taken.
St. Joseph County, with industrial South Bend furnishing most of the population, is in the four-county 3rd District. The other three counties are normally Republican, and often their GOP majorities combined are greater than St. Joseph's Democratic majorities.
From a population standpoint, if any present districts are thinned out to give the electorate greater representation, the 3rd would be in line for such carving. For in 1956, the 3rd cast a greater vote than any other district except the 11th (Indianapolis). Eugene J. Cadou, Indiana political expert for United Press International, recalled that in 1925 the Republican-controlled Indiana Legislature was about to adopt a gerrymander bill redistricting the state to the party's advantage when the Democratic minority members fled to Springfield, Ohio. They stayed about a week breaking up a quorum, until they were persuaded to return on the promise of the Republicans that they would not proceed with the bill.

But sales and earnings both were up from this year's first quarter figures.

It isn't easy — to go down at four spades on today's hand, but one player managed to feat without any trouble in a recent match. West opened the eight of diamonds, and East won with the Jack. East couldn't think of a good return and finally came up with the happy thought of a trump lead.

Declarer won in dummy with the ten of spades, led a club to his queen, and returned a trump to dummy's ace in order to lead the ace of clubs. The idea was to

get rid of a losing diamond in a hurry. The idea was good, but the hurry wasn't. East ruffed the ace of clubs,

much to South's horror. South overruffed and drew the last trump. This left him only one trump.

South next led a heart to the ace, cashed the king of clubs, and returned a heart. West won and led another diamond, punching out declarer's last trump. That was South's last trick. Down two!

At the other table of the match the declarer wasn't in such a hurry to take the clubs. He won the trump return with dummy's ace, drew three more rounds of trumps, and then overtook the queen of clubs with dummy's king.

He next continued with the ace of clubs, discarding the losing diamond, and led the ten of clubs

to force out the jack. It was easy to get back to dummy with the ace of hearts to run the rest of the clubs.

This declarer made his contract with an overtrick instead of going down two. Quite a difference, and all due to haste!

Daily Question
As dealer, you hold: Spade, A, 10, 5 Heart A 4 3, Diamond K 10 5, Club A K 10 9. What do you say?

Answer: Bid one club. The count is 18 points, but you have three aces, three tens, and a couple of nines. This is too much for an opening bid of one no-trump. Bid your suit and make a jump in notrump later on. Treat the hand as though it counted up to 19 points.

CAMP MCCOY, Wis. (UPI)—Nearly 10,000 men of Indiana's 38th Infantry Division began the second half-week of their two-week summer field training program today making preparations for Governor Handley's arrival to review the troops.
